## OKTA VERIFY – APP
## SETUP FOR IOS

On the private smartphone in 2 minutes

**1** Open the **'Appstore'**.

**2** Search for **'Okta Verify'**.

**3** Tap the icon for **'Okta Verify'**.
**4** Start the installation of the app by tapping **'Get'**.
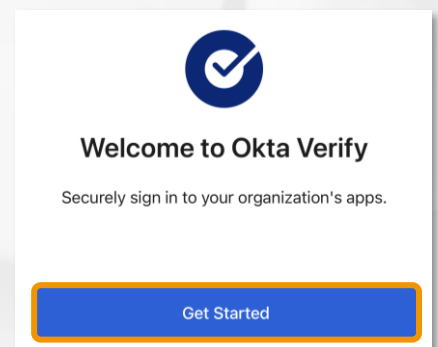

**5** You can already switch back to the Home screen. The app icon for **'Okta Verify'** and the installation progress are displayed.
**6** Once the installation is complete, please launch the **'Okta Verify'** app by tapping on it.

**7** On the app start screen tap the blue **'Get started'** button.

**8** Next tap the blue **'Next'** button.

**9** Then tap on **'Add account'**.

**10** Then be sure to select **'Organization'**.

**Choose Account Type**
Choose the type of account you would like to add

Organization
Work, school, company >

Other
Facebook, Google, etc >

**11** Then select **'Skip'**.

Skip
Add Account from Another Device

**12** After that be sure to select the **'No, Sign In Instead'** button.

Yes, Ready to Scan
No, Sign In Instead

**13** In the next window, the following URL must be entered in the **'Organization's Sign-In URL'** field: **https://login.wacker.com**
Finally, please tap on **'Next'** at the bottom.

< Okta Verify

**Enter Your Organization's Sign-In URL**

Organization's Sign-In URL
https://login.wacker.com
The URL should look like **example.okta.com** or **atko.biz**
Don't know your organization's sign-in URL? **1**

Next **2**

**14** In the next window, connect to your WACKER account.

First, enter your Windows user name in the **'Username'** field.

Second, confirm your entry by tapping the blue **'Next'** field.

**16** The screen briefly turns light gray ... In the background, your access data is checked for correctness.

**17** After that, you choose how comfortable you want future requests to be approved by you. We strongly recommend that you allow approval via push notifications.

**1** To do this, tap the blue **'Allow'** button.

Afterwards, iOS will separately prompt you to explicitly approve this selection.

**2** To do this, tap on the blue word **'Allow'**.

**18** In the final step you can activate for the **'Okta Verify'** app

▶ Touch ID resp.

▶ Face ID

To do that, tap the blue **'Enable'** button.

### Okta Verify

**Allow Push Notifications?**

Approve or deny requests directly from push notifications without having to open the Okta Verify app.

"Okta Verify" Would Like to Send You Notifications
Notifications may include alerts, sounds and icon badges. These can be configured in Settings.

Don't Allow — Allow **2**

Allow **1**

### Okta Verify

**Enable Face ID Confirmation?**

Protect your account by confirming your Face ID when you sign in using Okta Verify.

Do you want to allow "Okta Verify" to use Face ID?
Okta Verify uses Face ID to verify your identity.

Don't Allow — OK

Enable

Not Now

**19** **Congratulations!**

You have successfully installed the Okta Verify app and added your WACKER account. Now you can use your smartphone conveniently, quickly and easily for verification at approved Wacker services.

### Okta Verify

✓

**Account Added**

You can now securely sign in to your organization's apps.

Return to your organization's instructions to continue.

**Important:** Keep this app installed on your device. You'll need it to sign in.

Done

**Note:**

In Okta Verify you will see your account and a 6-digit code that changes regularly.

This code serves as a fallback solution for verification if there is no internet connection.

Launch Dashboard
How to get to **Launchpad for Me**?

▸ Go to https://www.wacker.com/.

▸ Scroll all the way down the page to "Portals & Login".

▸ Here you can find the link to the "Launchpad for Me".

---

**Tipp:**

Do you want to access **Launchpad for Me** conveniently via your own app?

Then SAP Mobile Start is the right app for you.

▸ To do this, log in to Launchpad for Me on a second device.

▸ Go to the "User Actions Menu" on the top right via
> Settings to > Application "SAP Mobile Start".

▸ Here you will find both a QR code for installation (IOS and Android) and one for one-time registration:

▸ Once you have successfully completed these steps, the SAP Mobile Start app will be available on your smartphone and you can easily access Launchpad for Me.
